Dear Joel,

I'd like to sincerely thank you for coming to speak at the JEA on February 3rd.

The audience greatly enjoyed your presentation about the traits that make Golf's best players and best Golf Pros the impressive professionals and people that they are.

After personally attending many seminars and presentations, and being bored more times than I can count, you did a wonderful job of pacing your talk in a lively and interesting way and your sense of humor truly kept the audience engaged.

Rachel and I also greatly appreciated your kindness and the ease of working with you during preparations for the program.

Thank you again for all of your time and efforts!

Sincerely,

Jennifer Rich
