Mr. Joel Zuckerman,

I can not thank you enough for coming to The Savannah Jaycees Leadership Lecture Series on June 3<sup>rd</sup>, 2014 and presenting us with an absolutely fantastic program. We host a monthly lecture series focused around ways to strengthen our leadership, management, and professional skills. Your presentation did not only fit in very well with our focus and mission, but it was hilarious and very engaging. The Savannah Jaycees is a group of young professionals who want to positively impact our community, make new friends and connections, and learn ways to improve skills that will apply to our professional lives. Your program helped us learn how the disciplines and skills of golf pertain to our professional lives and that by applying these skills will help us stay on course with our goals.

We had such a great turn out the night you came and we had very good feedback about your presentation. Several of our members said they laughed so hard their stomachs were sore the next day! I have never seen them all so engaged and we are still talking about how great your presentation was!

Thank you again for your time and knowledge! We would love to have you back soon!

Sincerely,

A handwritten signature in purple ink that reads "Sarah Westberry".
